Satisfy Students

*Catalina Stamati

HOW DO WE GET INSPIRED?

-Firstly we take the advantage of the context of the world (pandemic) and the situation of students ... because we are students, too!

-Then we realized that in the chat from school, it is quiet often to ask if anyone has the pages of a book or something else. So we came up with this idea, in order to have everything easier.

What is it for?

- ❖ You can ask questions and anyone can answer.
- ❖ Summaries will be revised in advance. Then students can write a recommendation, give their point of view about the summary and qualify us with stars.
