

APP NAME:

# ILLNESS DETECTOR

# WHAT INSPIRED US TO CREATE THIS APP?

- ★ We know that many people do not have the time or the resources to visit a doctor.
- ★ Also on this time in quarantine a lot of people don't want to go to hospitals to see a doctor because they are fear of getting the virus covid-19

# WHAT AND WHOM IS THIS APP FOR ?

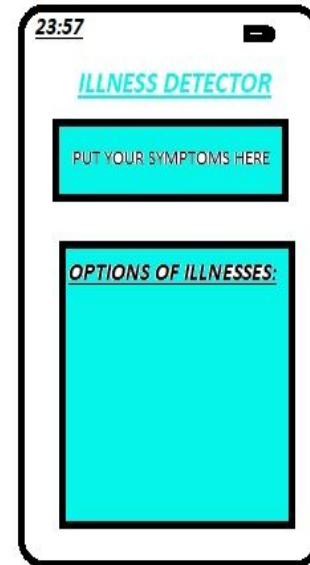

- ★ It's a very simple app to be used for all possible ages.
- ★ This app could be download in all platforms and devices

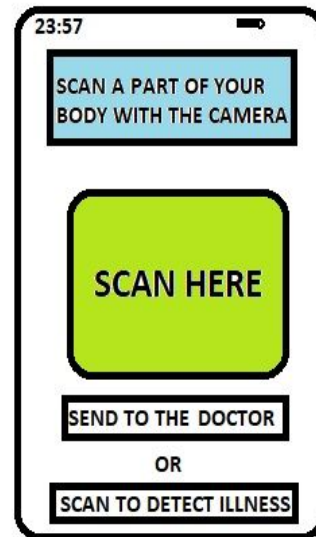

# FUNCTIONS OF THE APP

- ★ This app will allow people to tick the symptoms they have and it will tell them different types of possible diseases that they might have. All off this without seeing any doctor!
- ★ In the app there will also be doctors helping, giving advices and chatting with you.
- ★ If you have something on your skin like a rash and you want to know more about it, the app can also help you to detect everything by using your camera.
- ★ Meanwhile you will listen to relaxing music with effects that you can change so the wait becomes less stressful

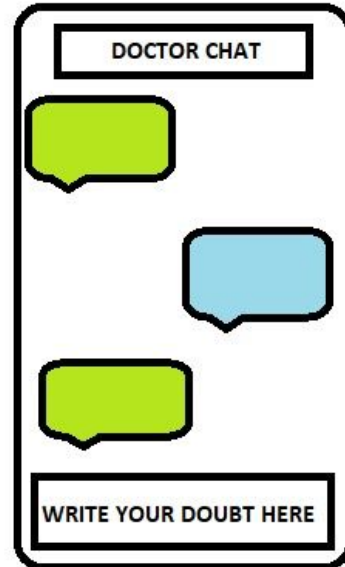

# WHAT WILL USERS SEE WHEN THEY OPEN THE APP?

# CAMERA SCAN

# CHAT WITH THE DOCTOR

# CREDITS
