

FIND

- The app that we design is a way to track our electronic devices. To track you must be in the area where you think you lost your device, when you enter the app, a map and a box will appear where your devices that are nearby will appear.

- This app can be used by any person and device; both iphone, samsung, etc.
- This app is free and it can be downloaded in the app store, galaxy store, among others.

- When starting in the app, you must first register and then you can see a map where it will show you your devices.
